SUBJECT: Communications Channels

25X1C

1. We should like to set up a definite procedure for the part which you and [REDACTED] play in our dealings with [REDACTED]

25X1C

25X1C

25X1C

2. It is suggested that the following system be used. Requirements which are levied on us by [REDACTED] should come to us through [REDACTED] 25X1C  
Our requirements on [REDACTED], however, should go through you. This is the method which is now in use in our dealings with [REDACTED] and it 25X1C  
seems to be working quite satisfactorily.

3. Before we put this procedure into operation, I suggest that you check with [REDACTED] to see whether it meets with his approval.
